

Jasper Partner Network Solution Provider

JasperSoft is committed to building a strong ecosystem surrounding its products to deliver value-added solutions to JasperSoft customers around the world. The Jasper Partner Network is designed for Systems Integrators and Consultants.

Reseller Partner Overview

The success of JasperSoft is built on the concept of community. Our partners serve as a critical component within that community and are considered central to our go-to-market strategy and our customers' success and we reward our partners for participating in the JasperSoft community.

The suite of JasperIntelligence products delivers operational and departmental reporting, online analytical processing (OLAP) and dashboard capabilities to end users. JasperSoft offers flexible deployment options: embeddable reporting components, end-user web-based reporting, or a stand alone Business Intelligence suite.

The JasperSoft suite of business intelligence products provides a platform that Solution Providers can leverage. Solution Provider create value for customers in a specific vertical, domain, or technology, for example, by creating dashboards, static reports, or a specific solution. JasperSoft provides an excellent platform for expansion and flexibility, with:

- Lowest commercial price point in the Business Intelligence industry
 - Improved margin and increased service dollars
- Access to the visible source code
 - Better, easier and faster customizations
 - Support cost lower, delivery faster
- Ability to add new features without the overhead of proprietary code
- Most embeddable contemporary architecture via public API architecture
 - Ability to enter new verticals

- Low cost of entry and acquisition
 - Leverage existing Java skills
- Lower license fees for your customers
 - Better implementation value
